DJ ALPHATRANCE

Alphatrance is a DJ passionate about music but also about travel, he highlights Asian culture. He was born in Toulouse in France and started his career in 1992. Techno was booming then. At just 18, he became a resident in the best clubs in Toulouse, Paris and Barcelona (Shanghai club, Technopole, Banana café, Café del mar, Rachdingue, etc). Later, he stopped clubs to turn to parties or trance festivals to immerse himself in more underground circles.

He experiments many styles of electronic music such as techno, goa trance and minimal psytrance. Finally he stops on psytrance, progressive and psychedelic trance. Between 1994 and 2006, he worked with many tribes, notably the "spiral tribe", the Harthouse label in Germany and he created the Aum family tribe between France and Spain. 🙏 Today, he plays and performs in several European countries such as France, Germany, Spain, Portugal, Italy, Croatia, Romania, Switzerland, Austria, United Kingdom, as well as in Asia such as Cambodia, Thailand (Bangkok and Koh Phangan), Sri Lanka, India and Nepal.

To date, Alphatrance has specialized in Psychedelic trance music, an invitation to the heart of its universe.

He explores sound and mastery in magical places on the planet.

A passion that he likes to communicate to his audience: a look at himself, a story and a reflection in the mix.

2014, he signs a contract with Spirited Records (Sri Lanka)

2016, marked the start of a collaboration with Ovnimoon Records (Chili)

2017 is another beginning of collaboration with Landmark Recordings (Germany).

Since 2022, he has joined the family of the German label Iono Music and marks the start of a great collaboration. 🐝
